

## LE Offers Xpert™ MLT I/MLA I Training Opportunity Nov. 11-13

**WICHITA, Kan. (Sept. 2, 2025)** – Together with experienced trainer Paul Dufresne, [Lubrication Engineers](#) is offering an online Xpert™ MLT I/MLA I class Nov. 11-13 with optional exam on the 14th. Participants will receive the same content they would in a traditional onsite class but with the convenience of online instruction.

In this course, managers, engineers and technicians alike will learn the impact that best-in-class lubrication practices can have on machine health and reliability. They will see why machine lubrication activities should be moved from modest and reactive to thorough, accurate and proactive. After the three-day class is over, qualified participants will have the optional opportunity to become certified as either or both Machinery Lubrication Technician I (MLT I) and Machine Lubricant Lubricant Analyst (MLA I).

### Course Content

- Lubrication fundamentals
- Lubrication of key equipment components
- Contamination control and lubricant storage & handling
- Oil analysis for enhanced equipment reliability
- Application of lubricants
- Lubricant programs

### Benefits

- Advance the lubrication knowledge and expertise of your reliability team.
- Gain control over the lubrication process and over your daily equipment reliability routine.
- Increase profits by increasing efficiency and reducing labor and downtime, all while protecting machinery.
- Enable team members to acquire MLT I and/or MLA I certifications.

### 3-Day Training – All Online

- Days 1-3 training seminar (8 a.m.-5 p.m. CT)
- Day 4 optional ICML test at your leisure

### About Lubrication Engineers

Founded in 1951, Lubrication Engineers develops, manufactures and markets premium lubricants, which – together with its full line of reliability-enhancing solutions – are designed to extend equipment

life, reduce energy consumption, and minimize maintenance costs. LE operates under an ISO 9001 Certified Quality System and services customers in more than 60 countries from its flagship 150,000-square-foot production facility in Wichita, Kansas. For more information, visit [www.LElubricants.com](http://www.LElubricants.com).

### **About the Instructor**

[Paul Dufresne](#) has been president and CEO of [Reliability Playbook](#) since 2017, following 31 years in maintenance and reliability roles in the military and in business. He has extensive experience designing and implementing reliability and maintenance programs focusing on industry best practices and achieving superior results while serving in a variety of roles in maintenance management and reliability leadership. He holds credentials through STLE as Certified Lubrication Specialist (CLS); through ICML as a Certified Machinery Lubrication Engineer (MLE) and Maintenance Lubrication Technician Level I (MLT I); through Mobius Institute as a Asset Reliability Practitioner (ARP-E); through SMRP as Certified Maintenance and Reliability Professional (CMRP) and Technician (CMRT); through the Association for Facilities Engineering as Certified Plant Maintenance Manager (CPMM); and through the Association of Asset Management Professionals as Certified Reliability Leader (CRL).
