

Customer Testimonial

Monolex[®] Penetrating Oil & Lubricant (2059)

Main Car Care – York, Pa.

General Automotive Repair Shop Applications

.....

Customer Profile

Main Car Care is located in York, Pennsylvania. It is owned by Charles Main who is a veteran auto mechanic.

Application

Charles Main has used many other brands of penetrants in his 18 years of automobile experience. He uses a penetrating lubricant for rusted bolts and other general lubrication and penetrating oil requirements throughout his shop.

Challenge

Charles needed a product he could rely on. He needs all of his machines running smoothly, effectively and needs the ease of removing parts.

LE Solution

Harish Doshi, LE lubrication consultant, knew that Monolex[®] Penetrating Oil & Lubricant (2059) was just the thing Charles needed for his operation. Monolex 2059 acts rapidly to penetrate and dissolve most rust, gum and varnish, freeing “frozen” parts. It leaves a tough film of lubricant and acts as a rust and corrosion preventative on metal surfaces. Monolex 2059 also contains Monolec[®], LE’s exclusive wear-reducing additive which has proven its extraordinary performance in thousands of applications.

Results

Charles often had to revert to very expensive means such as a cutting torch to get the job done. Since using Monolex 2059 Charles Main says, “This stuff is very good. It quickly dissolves rust, gum, and varnish and loosens frozen parts. I would never hesitate to recommend use of this product.”

Other Products Used

- 802 Heavy Duty Solvent Degreaser / Brake Cleaner (802)
- Monolec[®] Syn Multi-Vehicle ATF (1150)
- Monolec[®] SPB[™] Engine Oil (8530)

Thank you to Charles Main, owner, and to Harish Doshi, LE lubrication consultant (pictured), for providing the information used in this report.
