

## Almagard® Vari-Purpose Lubricant (3752)

**DHL Worldwide – Denver, Colo.**

**Chevrolet Cargo Vans**

- Saves \$7,500 a year on rebuilds

### **Customer Profile**

DHL Worldwide Express is a package delivery fleet servicing Colorado and the Rocky Mountain region.

### **Application**

DHL Worldwide Express runs a fleet of 45 Chevrolet and Ford 2500-3500 cargo vans. The vans are used to deliver packages in the city and in rural mountainous areas. They are exposed to high heat, severe cold, water, and heavy shock loading.

### **Challenge**

While using a commercial grade lubricant, they had an average of five to seven rebuilds on suspension, steering and U-joints per year.

### **LE Solution**

Jeff Dean, LE lubrication consultant, recommended Almagard® Vari-Purpose Lubricant (3752), which is a multi-functional extreme pressure lubricant for extended

service under extreme conditions in on and off-road vehicles. It is very tacky, has excellent water resistance, and will not pound out.

### **Results**

After one year of using Almagard 3752, there have been no failures on any greased applications. Previously there had been five to seven rebuilds a year at approximately \$1,250 each, costing them \$7,500 per year.

Almagard 3752 saves \$7,500 a year on rebuilds!

### **Other Products Used**

- L-X® Heavy-Duty Chemical Supplement (2300)

*Thank you to Mark Higgins, shop foreman, and to Jeff Dean, LE lubrication consultant (pictured), for providing the information used in this report.*
