

Customer Testimonial

Almagard® Vari-Purpose Lubricant (3752)

Fife School District #417 – Western Washington

School Bus Fleet

- Saves \$230 per front wheel

Customer Profile

Fife School is a small district that educates about 2,850 students. They have been an LE customer since 1992.

Application

Thirty school buses, primarily manufactured by Bluebird

Challenge

Fife School District was experiencing frequent king pin failures. Their bus fleet runs in cold, rainy and wintry weather conditions, on bad roads, with frequent stops.

LE Solution

Almagard® Vari-Purpose Lubricant (3752) was recommended and since converting, king pin failures are virtually non-existent.

Results

Per wheel savings of over 4 hours @ \$22 per hour plus parts results in savings of over \$230 per front wheel.

Nick Gratzler, lead mechanic explained to John Kowsky, Jr., LE lubrication consultant, that “Whenever one of these many cleaner products salesmen come in here saying how good their cleaner is, I tell them to see if it will get that red grease off the garage floor. That always is an indication of whether or not their cleaner works. Most of them don’t. I am really, really sold on your product! You know how long it lasts...we don’t have to order it very often.”

Records show that Fife School District has only needed to re-order a 55 gallon drum of Almagard 3752 once in 16 years.

Thank you to Bob Laurie, bus supervisor, John Heatley and Nick Gratzler, mechanics, and to John Kowsky, Jr., LE lubrication consultant (pictured), for providing the information used in this report.
