

Almagard® Vari-Purpose Lubricant (3752)

Ottawa County Road Commission – Grand Haven, Mich.

Ford, International, J.D., CAT Auto Car

- Save between \$700-\$800 per truck per year

Customer Profile

Ottawa County Road Commission maintains the roads and highways in Ottawa County, Michigan. They have been in business for more than 100 years, and an LE customer since 1989.

Application

Ford, International, John Deere, CAT Autocar brands of dump trucks, loaders, graders and dozers.

Challenge

The commercial grade lubricant they were using would not hold up. It would wash out of the shackles, king pins, bushings and bearings during winter snow plowing.

LE Solution

Almagard® Vari-Purpose Lubricant (3752) was recommended by the local LE lubrication consultant. Almagard 3752 is a multi-functional extreme pressure lubricant for extended service under extreme conditions

in on and off-road vehicles. It is very tacky, has excellent water resistance, is rust and corrosion inhibited, and will not pound out.

Results

Ottawa County Road Commission estimates they save between \$700 and \$800 per year per truck. They operate 100 trucks so annual savings have been approximated at \$75,000 per year.

Other Products Used

- 2300 L-X® Heavy-Duty Chemical Supplement (2300)
- Duolec® Vari-Purpose Gear Lubricant (1609)
- Multilec® Industrial Oil (6803)
- Monolec® Power Fluid (7500)

Thank you to the Ottawa County Road Commission, and to Jimmy Kukulski, LE lubrication consultant (pictured), for providing the information used in this report.
