

CUSTOMER TESTIMONIAL

3752 ALMAGARD® VARI-PURPOSE LUBRICANT
TAYLOR TRUCKING & EXCAVATION, Portland, TN
Dump Trucks & Backhoes • SIC 1794 Excavation Work

LE's 3752 is a multi-functional extreme pressure lubricant for extended service under extreme conditions in on and off-road vehicles.

CUSTOMER PROFILE

Taylor Trucking & Excavation hauls rock and does excavation work for the City of Portland, TN, many other area businesses and many private households. They have been in business for over ten years and an LE customer since 2003.

APPLICATION

Taylor Trucking & Excavation has a fleet of various dump trucks and backhoes used for the delivery of rock and dirt and for general excavation work.

AREA OF CONCERN

Most of the major fuel and oil company's greases were doing a decent job of lubricating the trucks and backhoes, but pound out and sling off was noticed.

LE SOLUTION

The local LE lubrication consultant recommended LE's 3752 Almagard® Vari-Purpose Lubricant. **LE's 3752 is a multi-functional extreme pressure lubricant for extended service under extreme conditions in on and off-road vehicles.** It is extremely tacky, has excellent water resistance, will not pound out, and is rust and oxidation inhibited.

After seeing a demonstration, Owner Tim Taylor was very impressed with the clingability of LE's 3752, especially when wet.

CUSTOMER COST SAVINGS

Tim applied 3752 to the grease points on the boom of his backhoe. He immediately noticed improvement in how smooth the boom would swing back and forth. Tim said, "After I greased the backhoe the first time with that grease, the boom would ride from side to side so smoothly that I almost slung it right off the back of the hoe." Tim said he also had a driver of one of the dump trucks commenting on a

severe vibration in the driveline and chasis of the truck he drives. Tim fully greased the truck and driveline with LE's 3752 and sent the driver to the quarry for a full load of rock. When the driver returned from the quarry to the office he told Tim, "I don't know what you did to the truck, but the vibration is totally gone." Tim says, "**I am sold on that grease. We won't ever use anything else and I will order some more when I get low on it. It's some good grease.**"
