

5182 PYROSHIELD®

MOUNTAIN WEST RESOURCE MGMT, INC., Cottage Grove, OR

Various Logging Equipment • SIC 2411 Logging

CUSTOMER TESTIMONIAL

5182 LASTING TWICE AS LONG AS THE COMPETITOR!

CUSTOMER PROFILE

Mountain West Resource Management, Inc. is located in Cottage Grove, OR. They are one of the oldest and most respected family-owned logging companies in western Oregon. Ad Heath is the shop Foreman. Todd Levings is the Yarder Operator.

APPLICATION

Some equipment operated by Mountain West Resource Management, Inc. includes a Thunderbird TMY yarder, an I.J. 80-I-100 tower and a Skagit 739 Slack-Line tower.

AREA OF INTEREST

The commercial grade lubricant they had used previously would

sling off the gears. This left them unprotected and also created housekeeping problems.

LE SOLUTION

LE's 5182 PYROSHIELD® was designed especially for open gears which operate under the most severe service conditions. It is an EP (extreme pressure), lead-free lubricant and functions flawlessly year-round.

CUSTOMER COST SAVINGS

Shop Foreman, Ad Heath, states that LE's 5182 is lasting twice as long as the lubricant he was using previously. He said that he would recommend LE's 5182 to anyone who is using a Slack-Line tower.

We wish to thank Ad Heath, Shop Foreman; Todd Levings, Yarder Operator and the local LE Representative for providing the information to prepare this report.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
