

6520 MONOLEC[®] HYDRAULIC OIL

JUBILEE FISHERIES, INC., Seattle, Washington

Denison Vane Pumps, Pull Master & Rapp Trawl Winches • SIC 0912 Fish

CUSTOMER PROFILE

Jubilee Fisheries, Inc. is a commercial fishing company based out of Seattle, Washington. They fish in the Gulf of Alaska and the Bearing Sea. They have been in business for 30 years, and an LE customer since 2005.

APPLICATION

Jubilee uses Denison Vane Pumps, Pull Master Winches and Rapp Trawl Winches for Trawl fishing.

AREA OF INTEREST

The commercial grade oil was fine in most areas, they filter the oil and keep the service and storage tanks very clean so they didn't have many issues. They wanted to try the LE product strictly for wear prevention, to see how the pumps and motors would hold up.

LE SOLUTION

Local Lubrication Consultant, Stig Oftedal, recommended 6520 MONOLEC[®] Hydraulic Oil. LE's 6520

meets all needs of modern hydraulic equipment. It has anti-wear qualities and is rust and oxidation (R&O) inhibited. It is water-resistant, has anti-foam qualities, high temperature stability, long oil life and uniform power flow.

CUSTOMER COST SAVINGS

LE's 6520 was put on board in the winter of 2005 and has performed well. In any given year they could expect to lose two 100 HP main supply pumps. So far they have only lost one pump in a year and two months of fishing. The color of the oil shows leaks well, which helps on deck. They will be doing some tear down this winter to see how it is performing.

OTHER PRODUCTS USED

- 607 ALMASOL[®] Vari-Purpose Gear Lubricant is used in the Spares gearbox.
- 8430 MONOLEC[®] GFS Engine Oil is used in the Alpha / B&W Engine.

We would like to thank Engineer, Chris Vernon-Cole; Chief Engineers, Eric Seibert and Kevin McCliesh and local LE Lubrication Consultant, Stig Oftedal, for the information provided to prepare this report.
