

Customer Testimonial

Monolec® Power Fluid (7500)

Precision Motorwerks, LLC – Bradenton, Fla.

1998 Chrysler Town & Country

- **Eliminated transmission shudder & hard shifting in high-mileage vehicle**
- **Provided affordable alternative solution to expensive transmission overhaul or replacement**

Customer Profile

Precision Motorwerks, LLC is an auto repair shop in Bradenton, Fla., specializing in repair and maintenance of BMWs. Precision Motorwerks was established in 2009 by owner David Pedersen, who has been using LE products since 1992.

Application

Personal vehicle: 1998 Chrysler Town & Country

Challenge

The 1998 Chrysler minivan had 124,000 miles on it, and the transmission was causing shudder and hard shifting problems. The vehicle was filled with a competitive Dexron-III transmission fluid. The end user had taken the vehicle to several transmission repair shops. One shop repaired the transmission three times, but it was still not fixed. Their fourth solution was to replace the torque converter.

LE Solution

Instead of replacing the torque converter, Precision Motorwerks gave the end user another, less costly option. Pedersen consulted with Robert Crews Sr., local LE lubrication consultant, who recommended LE's Monolec Power Fluid (7500) to stop the hard shift and shudder. This product's unique blend provides the proven protection of the most advanced wear, friction and oxidation inhibitors, all in one complete formula that you can count on to deliver superior wear performance, consistent friction characteristics, exceptional oxidation stability and excellent foam prevention.

Results

After servicing the transmission and replacing the current fluid with Monolec 7500, Precision Motorwerks found that the shudder and hard shifting immediately stopped.

The end user was so grateful and impressed that he called Pedersen a genius.

Other LE Products Used

- Full Torque™ Diesel Fuel Improver (2421) for diesel treatment
- L-X® Heavy-Duty Chemical Supplement (2300) for gas treatment
- Monolec® Gear Lubricant (703) for differential and manual transmission changes
- Monolec® Tetra-Syn™ Engine Oil (8521 & 8531) for oil changes (8531 for BMWs)
- Monolec Ultra® Engine Oil (8800) for diesel oil changes

Thank you to David Pederson, owner, and Robert Crews Sr., LE lubrication consultant (pictured), for providing the information used in this report.

Monolec®, L-X® and Monolec Ultra® are registered, and Full Torque™ and Tetra-Syn™ are trademarks of Lubrication Engineers, Inc.

Based on actual user experience. Individual results may vary. Not intended to supersede manufacturer specifications.
