VERNON TIGGES, Dexter, IA

1985 Buick Park Avenue V-6 Engine • SIC 8811 Private Households

294,467 miles on the engine and it is running perfectly

CUSTOMER TESTIMONIAL

CUSTOMER PROFILE

Vernon Tigges is an insurance salesman. He has been an LE customer since 1992.

APPLICATION

1985 Buick Park Avenue with a 3.8L V-6 engine that had been previously using a commercial grade 10W-30 engine oil.

AREA OF INTEREST

In 1990 Vernon Tigges purchased the 1985 Buick with 106,000 miles on the engine. There were no concerns with the engine or the engine oil being used, but while on a selling trip, Vernon Tigges ran across Jerry White's business card. He was curious about LE oils so he called Jerry.

LE SOLUTION

The local LE Representative recommended LE's 8130 MONOLEC ULTRA-BLEND Engine Oil 10W-30 for the Buick. At the time Vernon Tigges purchased LE's 8130, the 1985 Buick had approximately 150,000 miles on the engine.

CUSTOMER COST SAVINGS

Vernon Tigges changes his filter every 2,000-2,500 miles. At one of the filter changes, Mr. Tigges failed to tighten the filter. The next morning his wife drove to work. About 25 miles from their home, she noticed the oil light was flickering. She continued about five more miles and stopped at the service station where she traded. By this time the oil light was burning steadily. She had the service station attendant put in two quarts of that "funny" looking LE oil (red). Mrs. Tigges continued on to work at Drake University. She called Vernon Tigges when she arrived at work, and he immediately knew what had happened when he heard her story. He drove to the university and added four more quarts of LE's 8130 MONOLEC ULTRA-BLEND Engine Oil.

After running LE's 8130 for 60,000 miles Vernon Tigges changed the oil for the first time. The car still runs perfectly and doesn't use any make-up oil. **As of the date of this report the car has 294,467 miles on the engine and it is running perfectly.** Mr. Tigges changes filters at 2,000 miles.

We want to thank Mr. & Mrs. Vernon Tigges and the local LE Representative for providing the information to prepare this report.

Based on actual user experience. Individual results may vary. Product used not intended to supersede manufacturer's specifications.
