

## Monolec Ultra® Engine Oil (8800)

*Fred Ross – Colonial Heights, Va.*

*1993 Sierra Pickup*

### **Customer Profile**

Fred Ross has purchased Lubrication Engineers products since 1993. He saw LE lubes in action as a maintenance superintendant at a large municipality maintenance shop. He put trust in LE to protect several large pieces of equipment the city depended on greatly. It only made sense that trust carried to his own personal vehicles.

### **Application**

Fred Ross owns a 1993 Sierra pickup truck. He purchased the vehicle new in 1993.

### **Challenge**

Being a mechanic, Mr. Ross knows the importance of taking care of his investments; providing his truck with the best protection he can.

### **Results**

Since the initial break in of the vehicle, Monolec Ultra® Engine Oil (8800) has been in his truck. Monolec 8800 provides the most desired features and benefits for heavy-duty service in diesel and gasoline engines. Through a unique formulation available only from LE, Monolec 8800 offers exceptional service.

During a routine oil change at his brother-in-law's automotive shop, the drain plug was not properly tightened. Several days later, Mr. Ross' change oil light appeared on his dashboard. Knowing full well he had just had the oil properly changed he dismissed it. He continued to drive the vehicle for a week before curiosity took over and he looked under the hood. He found nothing on the dip stick, the plug was indeed loose but no oil in the pan. Mr. Ross tightened the plug and put in 5 quarts and continued to drive normally with no ill effects.

During this experience or to date, Mr. Ross has never experienced knocking, smoking, and still gets 20 miles to the gallon.

Fred Ross truly feels the protection of Monolec 8800 in his engine saved him the cost of a new one at an estimated \$2,500.

Mr. Ross says, "I'm very glad I have Monolec 8800 in it! It saved my engine!"

*Thank you to Fred Ross, and to Scotty Baird, LE lubrication consultant (pictured), for providing the information used in this report.*
